Art Unit: 3652

1. The marked-up copy of the drawing sheet containing figure 109 was received on 12/1/05. This proposed drawing change is approved.

2. A new corrected drawing of figure 109 in compliance with 37 CFR 1.121(d) is required in this application because the proposed drawing sheet is informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Despite applicant's amendments, the scope of claim 1 is still unclear. Even though the preamble now appears directed to only the subcombination hoist (and applicant indicates in the remarks that this is the case), the body of the claim still positively refers to and recites structure of the container and the truck bed (e.g.; line 15, "a tab on the ... truck bed", line 18, "connecting the container to the loadspreader"), which seems to indicate that a combination of the hoist with the container and truck is claimed. Appropriate clarification and amendment is required.

Also in claim 1, lines 4, 17, and 21, the recitations of the "vertical engaging hooking means" should be consistent;

lines 6-7, "for the container ... under said loadspreader" should be --such that the container supported on a truck bed can be driven under and aligned parallel to said loadspreader--;

lines 9-10, "horizontally up and down" is unclear;

the reference to "cable and winch means" in line 11 does not coincide with the reference to "said winch means" in lines 12 and 20; (i.e.; is there a single "cable and winch means" or a separate "cable" and a "winch means"?);

in line 11, "latching ... up" is unclear;

and lines 13-14, it is not clear what is meant by "reel up slack cable to operate the winch".

In claim 3, line 3, it is not clear what is meant by "then forward".

5. Claims 1-5, as best understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. Applicant's amendment necessitated any new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Keenan whose telephone number is 571-272-6925. The examiner can normally be reached on (schedule varies).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eillen Lillis can be reached on 571-272-6928. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
